

Introduction to BS 8536:2022 Design, manufacture and construction for operability- Code of practice webinar

Outstanding Questions Raised

1. **How does this update benefit the practice of evaluating design quality of public sector buildings during procurement (say for example Competitive Dialogue)?**

It is BS 8536 does not provide guidance on evaluating design quality or procurement involving competitive dialogue (public sector) but it does provide guidance and recommendations on managing requirements and design as part of an integrated delivery process.
