

Introducing AS/NZS 4801 Occupational Health and Safety Management

Creating a safer workplace

AS/NZS 4801:

Protect your people and your reputation

Benefits of AS/NZS 4801*

78%
Complies with regulations

61%
Reduces business risk

57%
Inspires trust in your business

55%
Protects your business

53%
Reduces the likelihood of mistakes

The people in your organization are your most important asset. That's why you need to be proactive when it comes to managing Occupational Health and Safety (OH&S). Don't let your organization be faced with the consequences of a major accident. It could not only damage your reputation, but it could also mean the threat of potential litigation, costly fines, or even imprisonment.

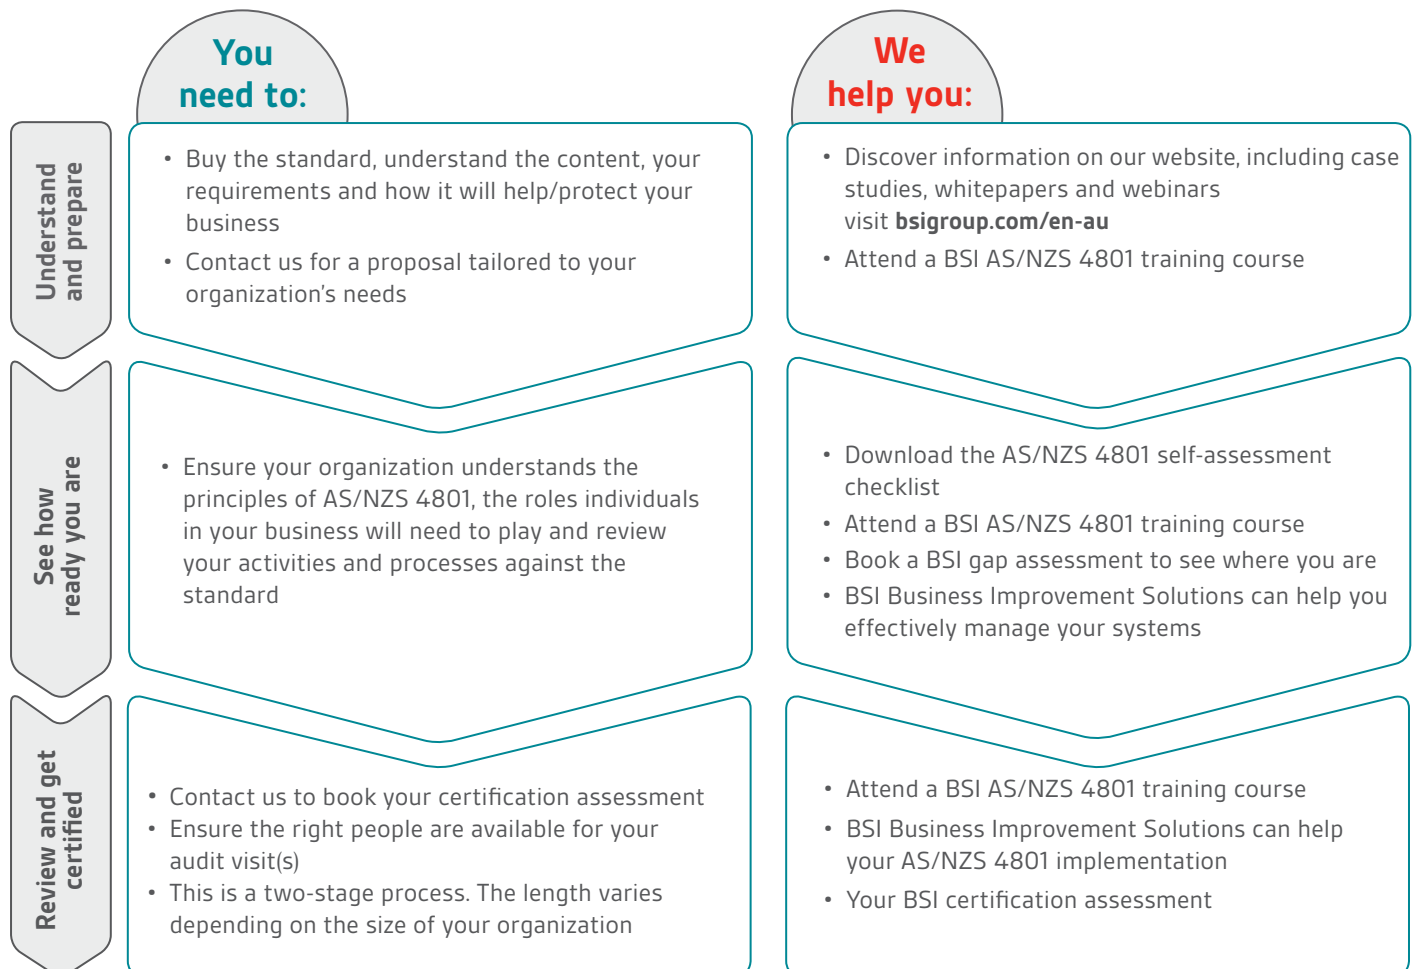

AS/NZS 4801 is the management system standard aligned to internationally recognized best practice that will help you to reduce risk and make your workplace as safe as possible. It will help you create a resilient organization, be more effective at protecting the health and welfare of your workforce, and be more aware of your legal and regulatory responsibilities.

"The process was very professional from the start, and through the entire process. All parts of BSI were very helpful and professional throughout - from the initial contact through to the back office and the assessor."

Firmus Energy, Northern Ireland-based gas supplier

Your AS/NZS 4801 Journey

Whether you're new to Occupational Health and Safety (OH&S) management or looking to enhance your current system, we have the right resources and training courses to help you understand and implement AS/NZS 4801. We can help make sure your system keeps on delivering the best for your business.

Continually improve and make excellence a habit

Your journey doesn't stop with certification. We can help you to fine-tune your organization so it performs at its best.

- Celebrate and promote your success – download and use the BSI Assurance Mark to show you are certified.
- Use BSI Business Improvement Solutions to help you manage systems and drive performance.
- Your BSI Client Manager will visit you regularly to make sure you remain compliant and support your continual improvement.
- Consider integrating other management system standards to maximize business benefits, such as ISO 9001 Quality Management and ISO 14001 Environmental Management.
- Our Occupational Health and Safety training courses could help you to develop as an OH&S professional.

Why BSI?

BSI has been at the forefront of AS/NZS 4801 since the OHSAS Project Group first published the OHSAS 18000 Series in 1999. Originally based on a number of standards including BS 8800:1996, the first specification for an OH&S management system, we currently hold the Secretariat and we continue to be at the forefront of developing and evolving the standard to keep organizations operationally resilient.

At BSI we create excellence by driving the success of our clients through standards. We help organizations to embed resilience, helping them to grow sustainably, adapt to change, and prosper for the long term. We make excellence a habit.

For over a century our experts have been challenging mediocrity and complacency to help embed excellence into the way people and products work. With 80,000 clients in 182 countries, BSI is an organization whose standards inspire excellence across the globe.

Our products and services

We provide a unique combination of complementary products and services, managed through our three business streams; Knowledge, Assurance and Compliance.

Knowledge

The core of our business centres on the knowledge that we create and impart to our clients. In the standards arena we continue to build our reputation as an expert body, bringing together experts from industry to shape standards at local, regional and international levels. In fact, BSI originally created eight of the world's top 10 management system standards.

Assurance

Independent assessment of the conformity of a process or product to a particular standard ensures that our clients perform to a high level of excellence. We train our clients in world-class implementation and auditing techniques to ensure they maximize the benefits of standards.

Compliance

To experience real, long-term benefits, our clients need to ensure ongoing compliance to a regulation, market need or standard so that it becomes an embedded habit. We provide a range of services and differentiated management tools which help facilitate this process.
