BSI Training Academy

Implementing BS EN 9100:2018 training course

Essential information about the course

Level 1 ⌣ 2

EN 9100 is the internationally recognized Quality Management System (QMS), for the aerospace industry. It helps organizations continually improve, focus on meeting customer requirements, and ensure customer satisfaction.

If you've already got a good knowledge of the requirements of BS EN 9100:2018 and need to implement the standard in your organization, then this course is for you.

Most delegates on this course have already attended our BS EN 9100:2018 Requirements course and are ready to take their knowledge further.

Using a step-by-step approach, you'll learn how to develop an implementation plan, create necessary documentation, monitor your Aerospace QMS< and achieve continual quality improvement.

The three-day course is structured to optimize your learning using our unique approach to accelerated learning, and it will consist of a blend of practical activities, group discussions and classroom learning.

Our course agenda

Day 1

- Aerospace Quality Management System (QMS)
  - Implementing an Aerospace QMS
  - Overall project management process and link to PDCA
- The context of your organization
- Documented information
  - Determine the need for documentation
