## How ready are you?

---

### Self Assessment Questionnaire

This document has been designed as an informal assessment of an organization's readiness for an ISO 14064-1:2018 Greenhouse Gas verification. By completing this questionnaire, you will self-assess your organization's readiness for verification and identify areas that may need to be closed out ahead of the verification visit.

## Readiness checklist

Please tick all of boxes which apply to you.

1 I have established the GHG reporting and organizational boundaries

2 I have selected and justified a quantification approach that minimizes uncertainty and yields accurate, consistent, and reproducible results

3 I have assessed the uncertainty associated with the quantification approach adopted

4 I have selected and justified the base year relied on

5 I have quantified direct emissions for CO<sub>2</sub>, CH<sub>4</sub>, N<sub>2</sub>O, NF<sub>3</sub>, SF<sub>6</sub> and other GHG groups in tonnes of CO<sub>2</sub>e

6 I have quantified significant indirect emissions and justified any excluded emission sources

7 I have aggregated emissions into the following categories at the facility level:

Direct GHG emissions and removals

Indirect GHG emissions from imported energy

Indirect GHG emissions from transportation

Indirect GHG emissions from products used by the organization

Indirect GHG emissions associated with the use of products from the organization

Indirect GHG emissions from other sources

8 I have quantified the reduction in emissions attributable to reduction and enhancement initiatives

9 I have set targets to reduce GHG emissions

10 I have documented our information management procedures

11 I have published a GHG report that:

Defines reporting and organizational boundaries

Indirect GHG emissions from imported energy

Explains how the GHG report was prepared

Includes information on the GHG inventory

Includes the required justifications for exclusions

Includes measures of uncertainty

Discloses the types of any carbon off-set credits purchased

12 I have purchased and reviewed a copy of ISO 14064-1:2018
