EU GDPR foundation level
training course

Essential information about the course

Level **1 C**

Our one-day foundation training course to the General Data Protection Regulation (GDPR) will help you understand how it applies to your organization and the potential benefits.

By attending this course you will be better prepared to carry out a discussion around the new regulation, conform to the parameters, as well as understand the background, updated concepts, principles, terms and definitions used in the new GDPR.

This foundation course will also help you understand how the regulation works, so you can prepare and work towards compliance for the new regulation that comes into force on 25 May 2018. In addition you'll be in a position to start a scoping exercise that can then lead to a gap analysis, privacy impact and risk assessment or a full data protection audit.

Course outline

During this one day training course you will work through the following topics:

Course outcomes

- Attain a thorough understanding of the current Data Protection legislation and the underlying principles

- Gain a good comprehension of the updated concepts and principles and the application of these in the new General Data Protection Regulation (GDPR)

- Be able to understand some of the main tenets of GDPR such as; privacy impact assessments, privacy by design, audits, data breaches etc.

- Understand the role of the Data Protection Officer (DPO) within the organization and the role s/he will play

- Ascertain how the new rules around GDPR apply to your organization

- Enact new governance and technical steps in your organization to comply with the GDPR requirements

Key takeaways

- Gain the confidence to interpret data protection regulations

- Have greater ability to identify potential impacts of privacy challenges

- Learn to integrate policies and procedures to reflect GDPR requirements

Upon successful completion of the course, you'll receive a BSI certificate.

You'll also be in a position to start a scoping exercise that can then lead to a gap analysis, privacy impact and risk assessment or a full data protection audit.

EU GDPR Foundation training course

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses that can help you develop professionally. We create a positive learning environment so you retain the knowledge and acquire the skills that will continue to be of use beyond the course.

Make sure the course is right for you.

This is the course for you if:

- You're a manager seeking to broaden your knowledge of the new EU GDPR
- You're an individual who needs to understand your new GDPR responsibilities
- You're new to information compliance with some exposure to the new regulation

What is the course like?

- One day
- You'll receive comprehensive course materials
- Led by a BSI subject matter expert

How will I benefit?

- Be familiar with the content of GDPR and have a good understanding of the fundamentals of the new regulation
- Gain the confidence to interpret data protection regulation and understand the implications for you and your organization
- Have greater ability to identify potential impacts on privacy

Why train with BSI?

- We have interactive sessions that give you plenty of opportunities to ask questions and learn from your peers
- You will be able to network with likeminded peers and develop professionally
- You will leave with a good knowledge of the regulations and an understanding of how your business function must contribute to achieve GDPR compliance for your organization

Training delivered at your site
This could be a convenient and cost effective option, especially if you have multiple delegates.
