Introduction to ISO 44001:2017 training course

Essential information about the course

Level **1C**

ISO 44001 Collaborative Relationship Management makes good business sense. Make it your business to deliver the benefits of collaborative working and lead excellent partnerships in your organization.

Introducing any new initiative to an organization can be challenging. This one day Introduction to ISO 44001:2017 training course is focused on providing a high level insight for those individuals who may be initially impacted by any changes, or, have been assigned to collaborative programmes. This standard brings a structured approach to collaborative working, and you will learn about the principles underlying this within ISO 44001:2017.

You will be introduced to the key requirements encompassed within the standard and how ISO 44001:2017 can impact behaviors from all operating levels to support successful outcomes of collaborative systems.

Your learning is based around industry best practice outlined in the standard, where the course will be led by a BSI expert tutor in a relaxed and comfortable learning environment. Find out how to challenge and innovate to get the best out of partnerships and deliver real benefits. An ISO 44001 approach can help your company achieve greater efficiency by sharing skills and resources whilst reducing cost and risk.
