

Internal Auditor FSSC 22000 v5.1

Training course

Essential information about the course

To provide guidance and practical experience in planning, executing, reporting and audit follow-up of an internal audit, when monitoring the effectiveness and conformity of an FSMS (FSSC 22000).

The adoption of a food safety management system (FSMS) is intended to enable an organization to improve its food safety (FS) performance and to manage its FS risks. An internal audit is an essential element to an effective FSMS, and by attending this course you will benefit by learning and developing the skills to help improve your organization's FS performance.

This course develops the necessary skills to assess and report on the conformance and implementation of processes based on FSSC 22000. You'll learn how to initiate an audit, prepare and conduct audit activities, compile and distribute audit reports, and complete follow-up activities.
