## ISO 13485 Internal Auditor training course

### Essential information about the course

Level 

BSI's "Internal Auditor: ISO 13485" course is intended for medical device quality professionals aiming to build on their current knowledge of ISO 13485 and evaluate the effectiveness of the quality management system in their organization.

process audits in accordance with the ISO 13485 and ISO 19011. An experienced instructor guides students through the internal audit process, from planning an audit to reporting on audit results and following up on corrective actions. Participants will gain necessary auditing skills through a balance of formal classroom tutorials, practical role-playing, and group workshops.

This intensive two-day course teaches the principles and practices of effective quality management systems
