The Power of eLearning with BSI

On-demand eLearning has become popular in today's connected world and is increasingly being used by individuals and organizations due to its convenience and cost effectiveness.

BSI on-demand courses are developed by subject matter experts. They contain the same high-quality content you will find in our tutor-led training but with the added benefit of being self-paced meaning you can learn at a time and place to suit you.
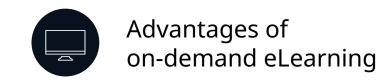

25% to 60%

On-demand increases knowledge retention rates by 25-60%
(Research institute of America)

5x

With on-demand, participants learn nearly 5 times more material without increasing time spent in training (IBM)

Advantages of on-demand eLearning

Flexible and convenient
Perfect for today's working patterns, learn when and where you want with 24/7 access

Hands-on and self-paced
Includes interactive elements like videos, quizzes and activities so you can progress rapidly or take your time to reflect on key areas, allowing you to optimize your learning

Increased information retention
Refresh and reinforce your knowledge by repeating modules or the full course during your access period

Huge range of topics
Choose from a wide range of topics including key areas such as quality, sustainability, digital trust and health, safety and wellbeing

Career development
Accelerate your career goals, learning new skills that you can immediately put into practice

Educate whole teams
A cost-effective way for employers to educate teams to the same standard

A greener way to learn
Support your sustainabilty goals: reduced emissions with no travel; minimal paper wastage; and a diminished drain on natural resources and energy

Learn from the experts

✓ As a global leader in standards development and management systems certification, BSI has directly helped shape the top ISO standards (ISO 9001, ISO/IEC 27001, ISO 45001, ISO 14001, and more)

✓ Proven, accelerated learning methodology enhances your learning through activity and engagement

✓ Prestigious BSI qualifications and certifications are specifically designed to develop and deepen your expertise

✓ Use of blockchain technology allows secure authentication and sharing of BSI Marks of Trust, training certificates and credentials

✓ Training is available in multiple languages worldwide

> **"I choose BSI training over anyone else because of the breadth and adaptability of their training offer. Our business is changeable and agile, and their training approach is too."**
>
> BSI Client, UK
