Notes:		Notes:

...making excellence a habit."

Step 6	<b>Gap Analysis to make sure you are on track</b> We can carry out an optional Gap Analysis - also called a pre-certification assessment. It looks at the existing processes and procedures that you have in place and compares these with the requirements of the standard. This will help you identify any omissions or weaknesses that need resolving before formal assessment.
0 0 0	Notes:
Step 7	Assessment – Stage 1 We can discuss what you need and recommend the best services for you. We'll help you identify ways to improve your business performance. We'll then give you a proposal detailing the cost and time involved.
0 0 0	Notes:
Step 8	Assessment – Stage 2 This is the final assessment. Stage 2 confirms your management system is fully aligned to the standard and is fully operational within your organization. We'll evaluate the implementation and its effectiveness, and make a recommendation for your formal certification.
• • • • •	Notes:
Step 9	Achieving your certificate Celebrate your success internally and externally - Once you have certification, it's essential that you promote your achievement. Use your new BSI Assurance Mark as a valuable marketing tool to promote your certification, offering your company a competitive advantage.
0 0 0	Notes:
Step 10	Make excellence a habit with BSI Your Client Manager will visit you regularly to help you make sure you remain compliant, and support you in the continual improvement of your systems. We will communicate with you regularly to keep you updated with any events, training courses and products that could maximise the benefits of your management system.
