## Section 2: Assessment Process

BSI is a leading global provider of management systems assessment and certification, with more than 92,000 certified locations and clients in over 193 countries. BSI Standards is the UK's National Standards Body. BSI provides independent, third-party certification of management systems.

### Assessment Methodology, Programme, Site Visits

This on-site assessment was conducted from 07-10/11/2022. The audit programme is included as Section 2.4. The approach to the audit was to treat the SPOC C2 Maran independent smallholders' groups as a MSPO Certification Unit. A range of environmental and social factors were covered. This includes consideration of topography, palm age, proximity to areas with HBVs, declared conservation areas and local communities.

The methodology for collection of objective evidence included physical site inspections, observation of tasks and processes, interviews of staff, workers and their families and external stakeholders, review of documentation and monitoring data. MS 2530-2:2013 were used to guide the collection of information to assess compliance. The comments made by external stakeholders were also taken into account in the assessment.

The Certification Unit not using MSPO certification marks for any type of on- and off-product communication. The Certification Unit are compliance with the use of the MSPO Logo and related claims.

The smallholders' sample were determined based on formula  $S = r\sqrt{n}$  where  $n$  is the number of estates while when applicable, the smallholders' sample were determined following the MSPO Certification Requirement. The sampling of smallholders was based on the formula  $(r\sqrt{n})$ ; where  $r$  is the risk factor 1.5, where  $n$  is total number of group members (1,009 + 100) is total number of group members. 300 members has been dropped out due to MPOB Licenses were expired. The sampled smallholder listed in Appendix C (based on previous certified smallholder list 1309-75% from  $S$  for new members and 25% from  $S$  for existing smallholder). The existing sample was 1,009 (13 sampled) and the new sample was 100 (41 sampled). The sampled smallholder listed in Appendix B.

Meetings were held with stakeholders to seek their views on the performance of the company with respect to the MSPO requirements and aspects where they considered that improvements could be made. At the start of each meeting, the interviewer explained the purpose of the audit followed by an evaluation of the relationship between the stakeholder and the company before discussions proceeded. The interviewer recorded comments made by stakeholders and these have been incorporated into the assessment findings.

Separate visits were made to each of the stakeholders to meet with the FFB dealers. Company officials were not present at any of the internal or external stakeholder interviews. A list of Stakeholders contacted is included as Section 3.6.

This report is structured to provide a summary of assessment finding as attached in the Section 3. The assessment was based on random samples and therefore nonconformities may exist that have not been identified.

The assessment findings from the initial assessment are detailed in Section 4.2. Major nonconformities close out offsite due to documentation evidence were sufficient.

For Annual surveillance assessment, the report was internally reviewed and approved by BSI qualified certification reviewer.

### Section 3: Assessment Findings

#### 3.1 Details of audit results

This assessment has been assessed using the following MSPO normative requirements. The assessment details are provided in Appendix A.

- MSPO MS 2530-2:2013 – General Principles for Independent Smallholders
- MSPO MS 2530-3:2013 – General Principles for Oil Palm Plantations and Organized Smallholders
- MSPO MS 2530-4:2013 – General Principles for Palm Oil Mills

#### 3.2 Details of Nonconformities and Opportunity for improvement

The nonconformity is listed below. The findings summary of the assessment by criteria are listed in Appendix A.

During the assessment there were One (1) Major nonconformities, zero (0) Minor nonconformities and One (1) OFI raised. The MPOB SPOC C2 Maran Certification unit submitted Corrective Action Plans for the nonconformity. Corrective action plans with respect to the nonconformity was reviewed by the BSI audit team and accepted.

The implementation of the Corrective Actions for the Major Non-conformity has been verified for its effectiveness and closed accordingly. The table below is the summary of the non-conformity raised during this assessment.

Non-Conformity Report
