Section 2: Assessment Process

BSI is a leading global provider of management systems assessment and certification, with more than 92,000 certified locations and clients in over 193 countries. BSI Standards is the UK's National Standards Body. BSI provides independent, third-party certification of management systems.

Assessment Methodology, Programme, Site Visits

This on-site assessment was conducted from 14-18/11/2022. The audit programme is included as Section 2.4. The approach to the audit was to treat the SPOC C5 Jerantut independent smallholders' groups as a MSPO Certification Unit. A range of environmental and social factors were covered. This includes consideration of topography, palm age, proximity to areas with HBVs, declared conservation areas and local communities.

The methodology for collection of objective evidence included physical site inspections, observation of tasks and processes, interviews of staff, workers and their families and external stakeholders, review of documentation and monitoring data. MS 2530-2:2013 used to guide the collection of information to assess compliance. The comments made by external stakeholders were also taken into account in the assessment.

The Certification Unit not using MSPO certification marks for any type of on- and off-product communication. The Certification Unit are compliance with the use of the MSPO Logo and related claims.

The smallholders' sample were determined based on formula $S = r\sqrt{n}$ where the smallholders' sample were determined following the MSPO Certification Requirement. The sampling of smallholders was based on the formula ($r\sqrt{n}$); where r is the risk factor (1.5 depending on risk), where n is total number of group members. The sample calculation was $n = 1,672$ (1,400 from total existing + 272 total new members provided by MPOB) - 75% from S for new members (46 sampled) and 25% from S for existing smallholder (15 sampled). During audit, the existing members were 1,218 after 182 members has been dropped out from total of 1,400 due to MPOB Licenses were expired and total of new members is 261. The sampled smallholder and total smallholder listed in listed in Appendix B.

Meetings were held with stakeholders to seek their views on the performance of the company with respect to the MSPO requirements and aspects where they considered that improvements could be made. At the start of each meeting, the interviewer explained the purpose of the audit followed by an evaluation of the relationship between the stakeholder and the company before discussions proceeded. The interviewer recorded comments made by stakeholders and these have been incorporated into the assessment findings.

Structured worker interviews with male and female workers and staff were held in private at the workplace in the mill and the estates. Fieldworkers were interviewed informally in small groups in the field. In addition, the wives of workers and staff were interviewed in informal group meetings at their housing. Separate visits were made to each of the local communities to meet with the village head and residents. Company officials were not present at any of the internal or external stakeholder interviews. A list of Stakeholders contacted is included as Section 3.6.

This report is structured to provide a summary of assessment finding as attached in the Section 3. The assessment was based on random samples and therefore nonconformities may exist that have not been identified.

All the previous nonconformities are remains closed. The assessment findings from the initial assessment are detailed in Section 4.2.

This report was externally reviewed by MSPO approved Peer Reviewer prior to certification and recertification decision by BSI. For Annual surveillance assessment, the report was internally reviewed and approved by BSI qualified certification reviewer.

3.5 Issues Raised by Stakeholders

IS #	Description
1	Issues: Collecting Centers (Seng Huat Trading & Al-Nine Group Trading) The collecting centers informed they are concerned numbers of smallholder yet to register for MSPO and acquired with MPOB Licenses. They will cooperate and help smallholders who required their assistance to register with MPOB as MSPO new members. They required MPOB to share with them list name of smallholders for their monitoring. They informed that the payments were made promptly without any delay to the independent smallholders.
	Management Responses: There is a complaint from sampled SPOC C5 Jerantut Smallholders on the weighing scale and FFB prices while sold to the collecting center (Seng Huat Trading).
	Audit Team Findings: Area of concern to be raise on the mechanism of complaint received from smallholders.
2	Issues: Casual workers No issue been raised by harvesters during interview. The relationship between SPOC C5 Jerantut smallholders and harvesters are good. Harvesters are aware with the environmental, safety and social issues. No issues in-terms of paid by smallholders due to mutual harvesting rate agreed between both parties made before start work.
	Management Responses: SPOC C5 Jerantut group managers encourage smallholders to always communicate with their casual workers especially on the awareness of environmental, safety and social.
	Audit Team Findings: No other action is required.
