Preparing for ISO 50001:2018 Five steps for a successful transition

Don't delay - start today

BSI has identified a step-by-step journey to help you understand and realize the benefits of the revised ISO 50001. We have mapped out a framework which guides you through the options and support available from BSI to ensure you have the knowledge and information you require.

- 1 Talk to your BSI Client Manager
 - · Discuss your challenges and timelines
 - Review the latest content on the BSI website for background information
- 2 Attend the BSI Training Academy
 - Delivered by experts, understand the new requirements faster and in greater detail by attending one of our training courses
- 3 Communicate with your organization
 - Talk to your leadership team about the new requirements
 - Communicate the revision to your wider organization to gain buy-in
 - Send regular updates on progress

- 4 Set up an internal project team
 - Create an implementation plan and monitor progress
 - Take a fresh look at your EnMS
 - Review your EnPIs and baselines and update as appropriate
 - Implement the new requirements on leadership, risk and context of the organization
 - Adapt your documentation to reflect the new structure
- Gap Assessment
 - To help you prepare for ISO 50001 we can use our experts to complete a gap analysis to identify your strengths and weaknesses
