

Your virtual classroom

BSI Connected Learning Live is a real-time, online way of training that delivers our world class learning programmes to you through an engaging and interactive experience, regardless of your location.

This is an ideal alternative to the typical classroom setting for professionals who do not have the budget or time for travel, or just prefer the convenience of attending a course online.

Although your tutor may be far away and your fellow delegates in different locations, we bring you together in a virtual classroom on the web. This is an interactive experience where the tutor can engage with delegates and share materials as if you were in a real classroom. You can also interact fully with your fellow delegates during these sessions.

Your Connected Learning Live courses

Some of our most popular training courses are now available through BSI Connected Learning Live. These include courses for the following subjects and management system standards*:

ISO 9001 Quality Management

ISO/IEC 27001 Information Security

ISO 14001 Environmental Management

ISO 22301 Business Continuity Management

The advantages of BSI Connected Learning Live

The digital revolution is changing the learning landscape. It offers more flexibility and gives delegates the ability to choose the environment in which they learn. Developed with the needs of organizations and professionals in mind Connected Learning Live is a quality learning experience that offers the following advantages.

True Class Environment

Our expert tutors and delegates interact real-time on our industry-leading web learning platform which creates an engaging classroom environment. You can communicate with the tutor and your classmates throughout the sessions.

Comprehensive Learning Experience

Our tutors share their in-depth knowledge and create a rich learning experience using a combination of teaching, discussion and activities. You'll receive the same level of quality training as our classroom courses. Classes are kept small so you get the right level of personal attention.

Cost Savings

You can take courses at work, home, or anywhere there's an internet connection, thereby eliminating travel costs such as car, air, and hotel expenses, saving you and your company money and time.

Achieve professional recognition

When you successfully complete one of our Connected Learning Live courses you will receive an internationally recognized BSI training course certificate.

How it works

For the class:

The course is hosted on a web meeting platform. This includes helpful features to maximize your learning experience such as:

- Breakout rooms
- Whiteboards
- Documents and video sharing
- Polls
- Chats
- File downloads

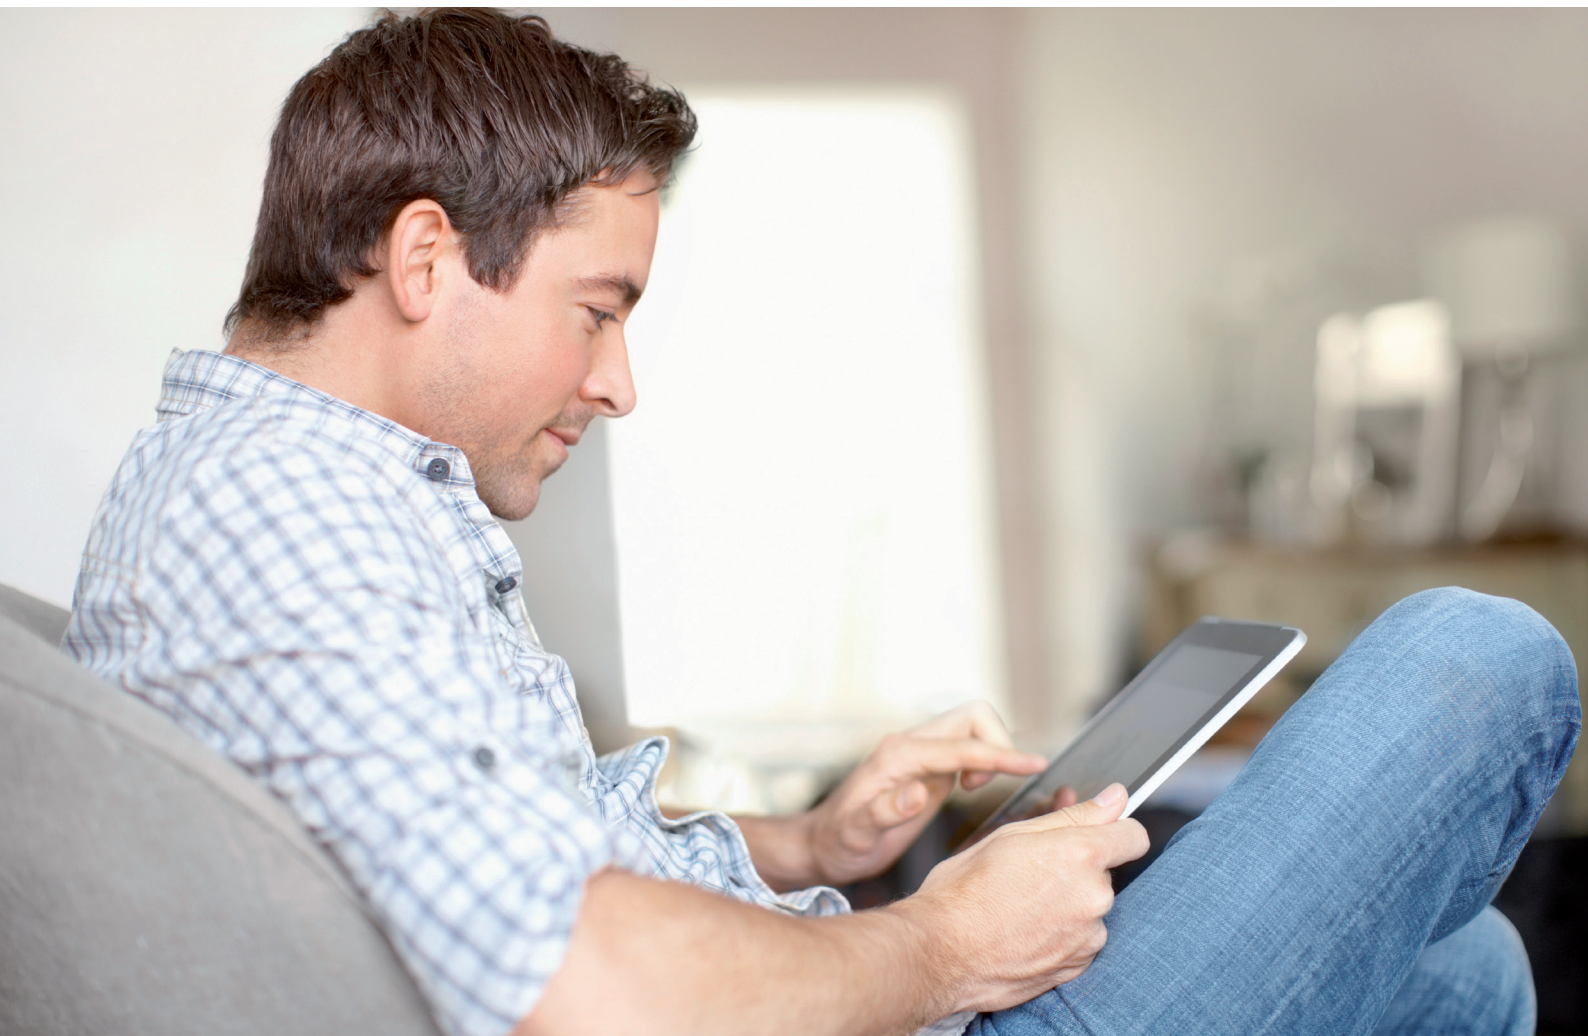

BSI Connected Learning Live courses have been structured in a convenient format to help balance your training needs with your everyday work commitments.

For the delegate:

What you need to ensure you get the best learning experience

- A PC or Laptop with internet connection
- A USB headset if you have one, if not you can connect audio via your phone free of charge

To optimize your learning experience, delegates are asked to connect from a quiet setting, free from interruption.

Why make BSI your first choice for training

We provide a proven pathway to success, wherever you are in your training journey. Build your knowledge, learn how to implement and audit management systems, or discover tools and techniques to make your business more resilient – whatever your requirements we have the right solution for you. You'll also learn with your peers; we'll discuss real-world challenges and share best practice based on over 100 years' experience.

About BSI

BSI is the business improvement company that enables organizations to turn standards of best practice into habits of excellence. For over a century BSI has championed what good looks like and driven best practice in organizations around the world. Working with over 84,000 clients across 193 countries, it is a truly international business with skills and experience across a number of sectors including automotive, aerospace, built environment, food, and healthcare. Through its expertise in Standards Development and Knowledge Solutions, Assurance and Professional Services, BSI improves business performance to help clients grow sustainably, manage risk and ultimately be more resilient.
